Future Agriculture e-Magazine: A Bi-monthly Journey to Innovation

Future Agriculture e-magazine is a distinguished bi-monthly online open access platform dedicated to disseminating cutting-edge information and fostering advancements in agriculture and its related fields. We are committed to serving a diverse audience including opinion leaders, decision-makers, industry professionals, and practitioners, providing them with content that is not only informative but also evidence-based and scientifically sound.

We Welcome Contributions in Various Formats:

- Technical Reviews
- Mini Reviews
- News Updates
- Information on the Latest Machinery & Products
- Insights into Recent Developments

Our Core Focus Areas Include, but Are Not Limited to:

- **Agriculture:** Exploring innovative farming techniques, sustainability in agriculture, and advancements in agronomy.
- **Climatic Studies:** Understanding the impact of climate change on agriculture and strategies for resilience.
- **Ecological Insights:** Delving into the interplay between agriculture and ecosystems for sustainable practices.
- **Plant Protection:** Strategies and technologies for protecting crops from pests, diseases, and other threats.

- **Economic Aspects:** Analyzing the economic factors influencing agriculture, market trends, and policy implications.
- **Fisheries:** Innovations and developments in aquaculture and sustainable fisheries.
- **Food Sciences & Technologies:** Advancements in food processing, safety, and preservation.
- **Nutrition Science:** Exploring the link between agriculture, food production, and nutritional outcomes.
- **Horticulture:** Latest trends in garden cultivation and management.
- **Agroforestry:** Combining agricultural and forestry technologies to create more diverse, productive, sustainable, and healthy land-use systems.
- **Social Interactions & Community Science:** Investigating the social dimensions of agriculture, including community engagement and social impact.
- **Value-Added Products & Valorization:** Enhancing the economic value of agricultural products and waste through innovative approaches.

And Other Related Subjects & Topics

Our content is tailored for those seeking to influence the agricultural sector, from policy formulation to ground-level implementation. Through our magazine, we aim to provide a platform for sharing knowledge, sparking innovation, and promoting sustainable practices within the global agricultural community.

Submission Guidelines for Authors - Future Agriculture e-Magazine

How to Submit Your Article

Authors interested in submitting an article can do so by filling out the submission form located on the designated submission page of our website or by sending it directly to Email: **submissionfutureagriculture@gmail.com**. Please use "New Article for Submission-Title of Article" as the subject line of your email. In the email body, include a cover letter addressed to The Chief Editor, Future Agriculture e-magazine, India.

Article Submission Requirements

- **Author Information:** Provide the names, qualifications, honors, and affiliations of all authors. By submitting, authors agree to the terms provided in these guidelines, including the transfer of copyright ownership to Future Agriculture.
- **Format:** Submissions must be in MS Word, A4 format with justified text, Times New Roman font, 12-point size, and 1.5 line spacing.
- **Length:** Articles should ideally be 2–5 pages long, with a maximum word count of 2000.

- **Language:** Submissions must be in English, adhering to either American or British standards consistently.
- **Cover Page:** Include the title, author(s) name, designation, official address, contact numbers, email address, and an abstract (120-180 words).
- **Content Guidelines:** Articles should be critical, creative, and offer novel insights on global issues, supported by reliable, peer-reviewed sources. Use italics for emphasis and ensure logical flow and reasoning throughout.
- **Structure:** Organize the manuscript logically with clear headings and subheadings. Use automatic numbering for pages and lines.
- **Originality:** Submitted articles must be original, not previously published, nor under consideration elsewhere.
- **Figures and Tables:** Utilize figures and tables where appropriate, citing sources according to APA style. Ensure figures are in editable format and include captions.
- **Units and Nomenclature:** Use the International System of Units (SI) and adhere to international nomenclature standards.
- **References:** List references at the article's end, including only those cited within the text.

Additional Instructions

- **Hard Copies:** We do not accept hard copy submissions.
- **Copyright:** Authors are responsible for obtaining copyright clearance for any reused material.
- **Review Process:** Submissions are subject to review. The editorial board reserves the right to edit or decline articles. Authors will receive the revised draft for approval before publication.
- **Anti-Plagiarism:** Future Agriculture e-magazine adheres to a strict anti-plagiarism policy. Articles with a similarity index above 15% will require revision.
- **Final Submission:** Include a scanned passport-size photograph of the author(s) and a signed Declaration of Originality.

Editorial Rights

The editorial board holds the final say on publication decisions based on the standard and relevance of the submissions. The editor reserves the right to modify content or titles as necessary to fit the magazine's standards, without altering the article's core message. Copyright of published articles resides with Future Agriculture e-magazine.

We look forward to your valuable contributions to the field of agriculture through insightful and groundbreaking articles.
